DIRECTIONS:

1. Use 12" x 18" white construction paper.
2. Measure down 4" from the top of the paper and draw a line. Cut out strips the width of the ruler up to the line. Leave a ruler space between each strip, cutting out every other strip.
3. Write the name of the book and the author on the top 4" of the paper. Draw a picture of the setting, the main characters, or an event in the story in this top part. Be artistic and creative!
4. Label each strip with the category heading (setting, main characters, main event, problem or solution). Write the setting, characters, the main events, problems or solutions sideways on the strips, saving the first strip for glue and the last one for the genre (realistic fiction).
5. Form a circle with the first strip glued under the last strip.
6. Punch two holes for string, tie with string or yarn together and hang from the ceiling

As always, take pride in your work and create a masterpiece you will be proud of!
